Fifth Place: Beachfront Baby Wrap

Beachfront Baby Wrap water baby carriers are a must have for hot weather! 100% polyester jersey lends breath-ability with just the right amount of stretch. The fabric feels like a lightweight, silky swimsuit which keeps it light in the water & dries very quickly. Wear baby in the shower, at the beach, at the water-park or in the pool. This especially comes in handy for keeping your hands free to play with or help older children in the water! Great for showering with a slippery baby! Can even be used as a sporty, everyday wrap! Available in 10 fun colors! Unlike other water baby carriers, there are no buckles, snaps or neoprene- just a long piece of comfortable cloth with tapered ends. The wrap conforms to the wearer, shoulders and back for a comfortable fit that is fully customizable for babies & parents of all sizes. Wrapping is a process much like tying your shoes- it takes practice in the beginning, but soon becomes second nature. A wrap-style carrier places baby in the optimal position- high on the wearer, chest and close enough to kiss. This is extremely important in any water environment.
